

3D Food Printing System

ProcuSini® 3.0
- the all-rounder -

ProcuSini® 3.0 Dual
- double your output -

For hotel, catering, event gastronomy and confectionery

Handcraft in a new dimension

A photo printer already is an integral part of many companies.

The food printer Procusini® makes a three-dimensional craftsmanship with an unprecedented precision possible for the first time.

It works like an icing bag. It automatically and precisely brings the food from the Procusini® refill into the desired 3D shape layer by layer. All of this with very simple operation without any moulds, templates or other tools.

At present, more than 300 systems are in use worldwide.

Until now, the existing tools have set tight limits for the implementation of your ideas. But this is going to change now. With the Procusini® you can give free reign to your creativity!

Gerd Funk,
CEO, Print2Taste GmbH

The overall system

- all-round carefree -

- Your benefits -

- Win and inspire customers who are looking for something special.
- Creative and personalised food creations from savoury to sweet.
- Already economical production as of batch size 1.
- Procusini® 3.0 Dual halves your production times.

- Guaranteed success -

The all-rounder **Procusini® 3.0**, **Procusini® 3.0 Dual**, the **Procusini® food refills** and the numerous applications in the **Procusini® Club** form an ideally matched overall system.

Procusini® 3D Choco – sweet accents – filigree and extraordinary –

Procusini® 3D Choco lettering with fruity dessert variation

The event motto on 250 dessert plates made for my guests for the wow effect.

David Seidel, Executive Chef,
The Westin Grand Munich

Individual labeling of chocolate bars

The cacao compound Procusini® 3D Choco allows the modelling of creative and filigree treats, such as hollow forms, logos and letterings. Simply insert Procusini® 3D Choco refill; the melting is taken over by the Procusini®.

84 personalized choco guitars in just 93 minutes
The Procusini® 3.0 Dual needs only 47 minutes

– 1 praline in approx. 1 minute –
With a Procusini® 3D Choco refill you can produce up to 95 choco guitars

Personalized desserts with Procusini® 3D Choco

Procusini® 3D Pasta - greetings from the kitchen - with a personal taste -

Procusini® 3D Pasta - surprise your guests with personalized pasta

The amuse-gueule already gives the guest the feeling that we meet his/her very individual needs in the kitchen

Within 3 minutes the Procusini® 3D Pasta is freshly mixed

Mix Procusini® 3D Pasta freshly with water and oil. You can vary the taste by adding a special oil or your own broth.

Procusini® 3D Pasta is available in the colors natural, red, green and black.

Procusini® 3D Pasta lobster as an eye-catcher

- approx. 7 minutes per lobster -
With a Procusini® 3D Pasta refill you can produce up to 17 lobsters

Production time for 25 company logos „Jung“: 17.5 minutes
With Procusini® 3.0 Dual you can create 25 company logos „Jung“ in just 9 min

Procusini® 3D Fondant

- a classic with surprising possibilities -

Procusini® 3D Fondant - the entire world on a cake

The good thing about the Procusini is that I don't have to be there the whole time. It is operating on its own.

Benedikt Momm,
Confectionery Momm

Procusini® 3D Fondant snowflake

Procusini® 3D Fondant offers an incredible firmness combined with a wide range of colors in white, yellow, red, green and blue. Therefore the Procusini® 3D Fondant allows the production of 3D busts and complicated 3D objects.

As an alternative to modelling by hand the Procusini® also assists in creative cake decorating.

3D busts with a personal touch

- approx. 36 minutes per Einstein -
With a Procusini® 3D Fondant refill you can model at least 1 Einstein.

Design your theme cakes with objects from Procusini® 3D Fondant

Procusini® 3D Marzipan – the all-rounder

– small gifts to enjoy –

Customers' dreams made of Procusini® 3D Marzipan

The 3D template came directly from the customer. After a few clicks in the Procusini Club the 3D food printer has modelled the give-aways.

Procusini® 3D Marzipan Refills

Procusini® 3D Marzipan stands out through its high flowability for a fine layer formation and the simultaneous stability of the objects.

Available in the colors natural, yellow, red, green and blue.

Logo from Procusini® 3D Marzipan Blue

– Up to 10 „NOW“ logos in 30 minutes with the Procusini® 3.0 Dual –
With a Procusini® 3D Marzipan refill you can produce up to 24 „NOW“ logos

A tasty logo, attractively packaged and the event will be a lasting memory

Tobias and Nicole
married on June 17, 2017
in Munich

3D selfie, couple bust and the original bridal couple as sweets – 3D scanned and modelled –

Place the original bridal couple in marzipan onto the wedding cake and offer the bridal couple something very special.

Original bridal couple, modelled with Procusini® 3D Marzipan, colored by hand.

As a personal gift, the 3D Selfie can be easily combined with your cakes and pies. A successful eye-catcher for festivities such as birthdays and anniversaries.

3D selfie
e. g. 7 cm in height, 70 g in approx.
50 minutes

The couple bust for the wedding cake or as an extraordinary present.

Original couple bust
e. g. 9 cm in height, 190 g in approx. 2.5 hours

You want to experiment with your own foods?

Sausage squirrel, a highlight also for adults

The secret of successful 3D food items lies in the right consistency and formula in combination with the settings.

Vary for instance the temperature, speed and layer height in the ProCusini® Club and find the settings suitable for your foods.

Professional tip:

In order to avoid lumps, press the mass through a fine sieve.

Fancy starter – mashed-potatoes-octopus on pike-perch fillet and ratatouille

Fresh goat cheese maze as a hearty snack

Own foods

- individually and personally -

Cassis - the company logo for dessert

The strong color of the cassis brings out a great contrast. With the Procusini, filigree letterings and logos are easy to produce.

Sweet crispy waffle for dessert

Typically laborious waffle dough are modeled quickly, cleanly and without loss in no time by Procusini®.

Other classics such as herb butter are brought into shape creatively or personalized with Procusini®.

Fish with savory crispy waffle

Wasabi calligraphy to sushi

Logo of fine herb butter on juicy steak

Easy to operate

Trust our Procusini® foods which are specially adjusted to the Procusini®. These are easy and practical in use – guaranteed success.

Ready to go: From the unpacking of your Procusini® to the production of your first object you need less than 15 minutes – without any prior knowledge.

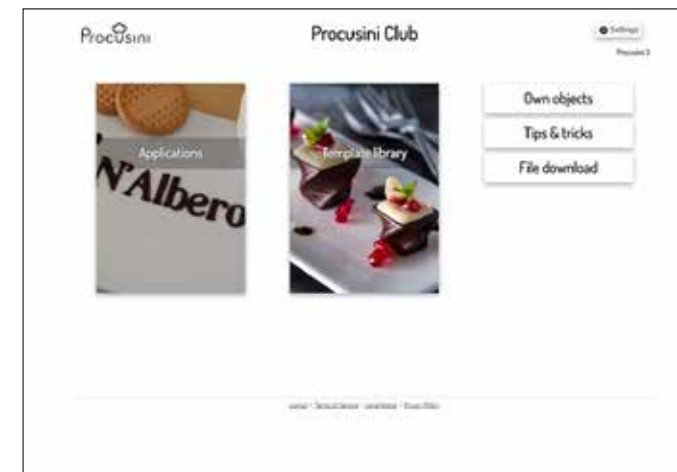

- Open the cover
- Insert the Procusini® refill
- Close
- Let's go!

No cleaning necessary, since the foods in the Procusini® refill do not come into direct contact with Procusini®. The cartridge, stainless steel plunger and stainless steel tip are even suitable for dishwasher cleaning if needed.

Easy operation with a computer, laptop or tablet via WLAN.

Reach your goal in just a few clicks - without any programming -

You can create your desired 3D object in the exclusive Procusini® Club without any prior knowledge. Simply open your browser and log into your personal profile.

A software installation is not necessary.

My goal was that you can reach your desired result without any programming in just a few clicks.

Marcel I.
software engineer, Print2Taste

Unique range of applications

- very easy in the Procusini® Club -

Personal handwriting and freehand drawing

Give free reign to your creativity or trace the outlines of a picture in the background.

Logos

Stage the logo of your customer in a very special way.

Template library

Use more than 400 tested and popular 3D objects, hollow forms, letters and numbers.

Exclusive small batch series

Allows you to decorate a large number of plates – with objects suitable to the occasion.

Text messages

Create personal text messages in a variety of fonts and sizes.

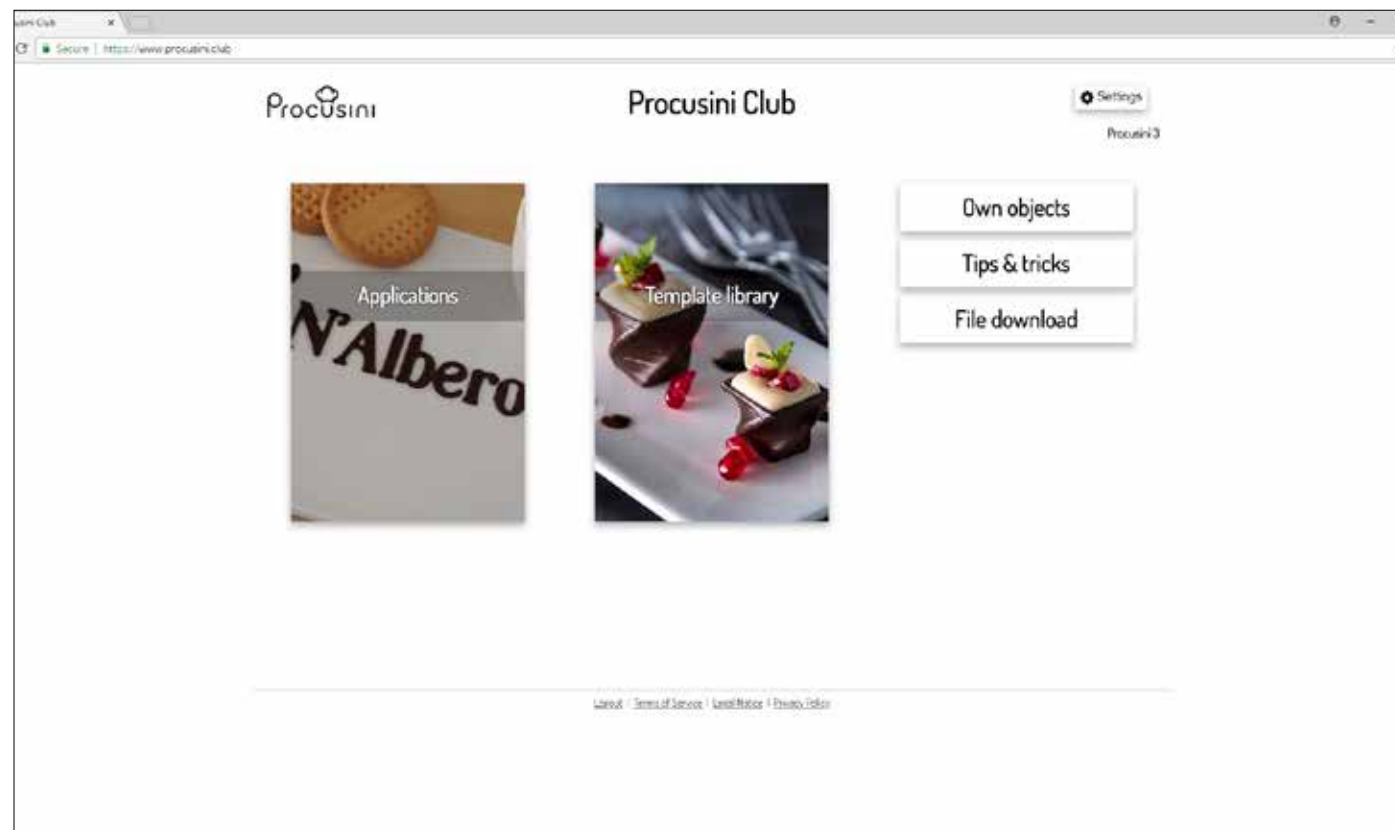

3D objects

The object desired by your customer to enjoy.

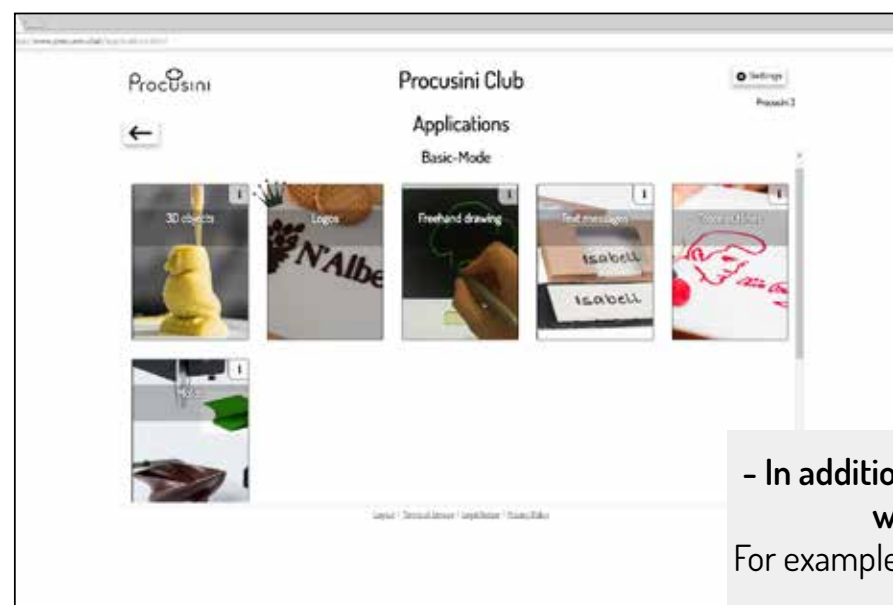

Procusini® Club

- an overview -

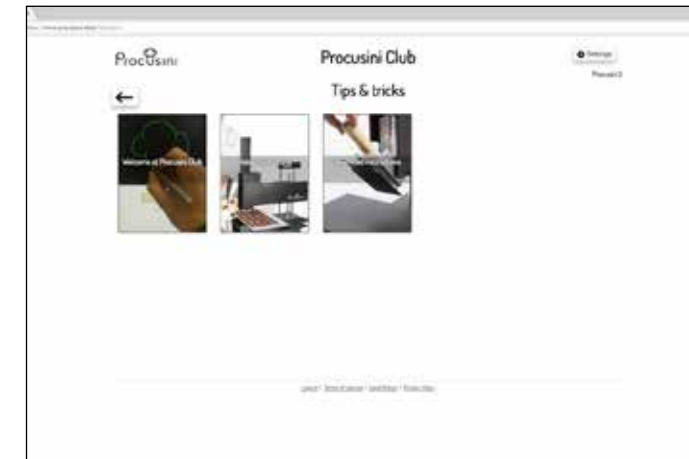

The Procusini® Club has everything you need to get foods in shape without programming

Overview of popular applications

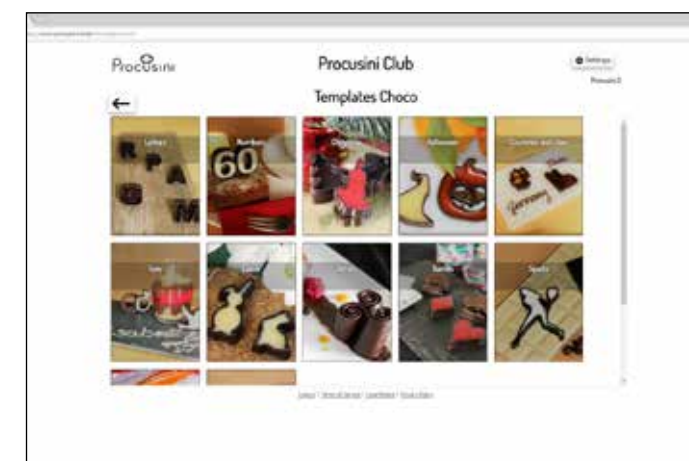

- In addition, by using the expert apps you can work with your own foods -
For example, adjust temperature, speed and layer height to your food

Tips and Tricks

In each application you can reach your desired goal with just a few clicks.

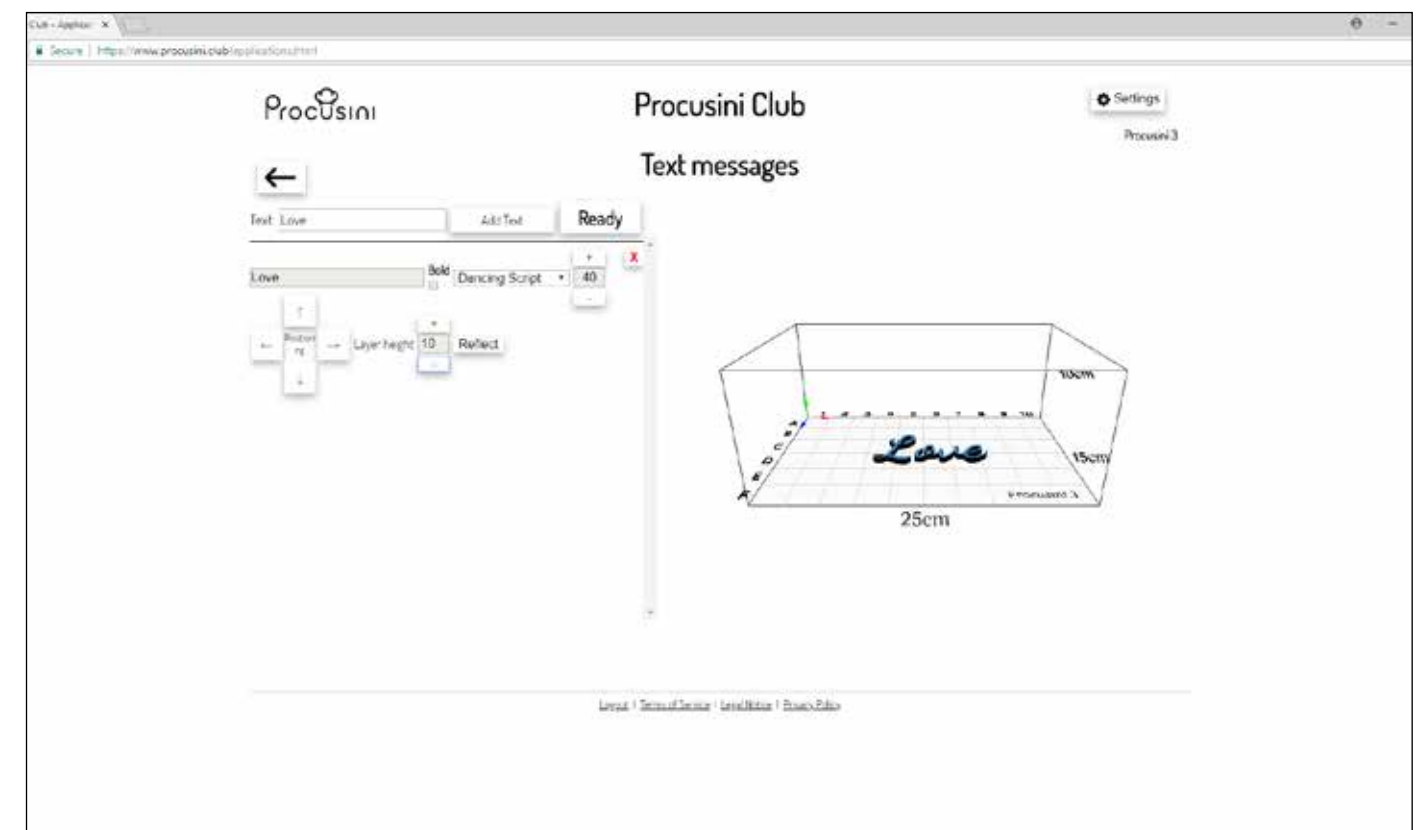

In addition, you can find useful hints and demonstrative short videos in „Tips and Tricks“.

e.g. 3D Choco templates sorted by subject

In the template library you will find objects on numerous topics and occasions.

In addition, you can edit and re-produce your already created templates.

In the text editor, simply enter the desired text, select a font & font size and determine the layer height for the desired 3D effect. Here we go.

Service examples
