HOTCHOCSPOON.

THE ORIGINAL.

2004 – In his Chocolate Company Café in Aachen (Germany) Chef Tous prepares a delicious hot chocolate drink for his guests. Different flavours in different hotpots. He loves the taste but hates the daily cleaning of the hotpots. So he starts with several experiments for a one-portion chocolate drink and he ends up with the Hotchocspoon.

A chunk of pure chocolate happiness on a wooden spoon to melt and stir into 200 ml of full fat boiled milk.

Tous' head flows over with all kinds of ideas and flavours – like every creative chef - and also his guests inspire him a lot. He adds cinnamon to the chocolate, ginger or hazelnut and comes up with the brilliant idea of putting some alcohol in a small pipet and sticks that into the chocolate chunk next to the wooden spoon. As time goes by, more and more chocolate lovers visit his lunchroom to drink the best hot chocolate in town and to buy them for home-consumption.

This period (2004-2005) was the start of Chocolate Company as a brand. Now – in 2020 – Chocolate Company has a factory in the Netherlands and exports the Hotchocspoon all over Europe and the world. Please contact us for more information.

CACAO TRACE.

HIGH QUALITY PREMIUM CACAO.

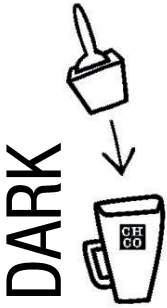

All our chocolate products are made from cacao trace chocolate, Cacao-Trace is a sustainable cocoa sourcing programme that focuses on better tasting chocolate, and in the process creates value for all, from farmer to consumer.

Our chocolate is obtained from the highest quality beans, fermented and dried according to strict guidelines. In our post-harvest centres close to cocoa farmers, expert fermenters monitor and improve the fermentation process. This ensures a consistent superior taste for chocolate lovers, and more income for farmers.

Training and premium pricing for cocoa farmers are part of our programme but we are always looking for new ways to improve their lives. With the Chocolate Bonus, we share the value of a higher quality chocolate back: €0.10 per kilo of chocolate sold, goes directly back to the cocoa farming communities we work with.
