POSTMIX EQUIPMENT

1

DISPENSER PUREMIX ECO 2+1

- 2 kinds of juices and cooled water
- Mixing zone volume 2 x 2,5 kg packets = 5 kg concentrate PURENA = 156 breakfast portions (160 ml) inside the appliance
- Super fast cooling thanks to use the dry cooling block system
- Dispensing 160 ml portion of product takes only 6 seconds
- Automatic selection of settings for the product
- Dimensions: width: 260 mm, height: 420 mm, depth: 430 mm
- Weight 25 kg
- Power consumption: 250 W
- Water connection: w 8mm hose and 3/4" x 8 mm quick coupling

2

DISPENSER PUREMIX SLIM 2+1

- 2 kinds of juices and cooled water
- Separate zone of concentrates outside the dispenser in special drawers (under the counter) which makes that the device is small and ergonomic in size
- 4 x 2,5 kg packets = 10 kg concentrate PURENA = 312 breakfast portions (160 ml) in separate cupboard
- Super fast cooling thanks to use the dry cooling block system
- Dispensing 160 ml portion of product takes only 6 seconds
- LED backlight in the dispensing area
- Serving counter: daily, weekly
- Possibility of programming the size of the portion: Auto portion or dispensing in Manual mode (amount of drink programmed by length of holding the button)
- Compatibility with payment systems or access systems (for card or magnetic key, RFID reader: canteens, water parks). Communication with billing systems via slow-speed 0/1 input
- Informative LCD display
- Automatic selection of settings for the product
- Easy correction of the concentrate/water portions from the control panel for the waiter option
- Possibility to fill a jug or carafe with a key or a waiter's button
- Possibility of temporarily switching off juice/drink dispensing when the water dispensing function is active
- Dimensions: width: 260 mm, height: 355 mm, depth: 440 mm
- Weight: 30 kg
- Power consumption: 250 W
- Water connection: w 3/4" hose or 8 mm quick coupling

3

DISPENSER PUREMIX COMPACT 2+1

- 2 kinds of juices and cooled water
- Mixing zone volume 3 x 2,5 kg packets = 7,5 kg concentrate PURENA = 250 breakfast portions (160 ml) inside the appliance
- Super fast cooling thanks to use the dry cooling block system
- Dispensing 160 ml portion of product takes only 6 seconds
- LED backlight in the dispensing area
- Serving counter: daily, weekly
- Possibility of programming the size of the portion: Auto portion or dispensing in Manual mode (amount of drink programmed by length of holding the button)
- Compatibility with payment systems or access systems (for card or magnetic key, RFID reader: canteens, water parks). Communication with billing systems via slow-speed 0/1 input
- Informative LCD display
- Automatic selection of settings for the product
- Easy correction of the concentrate/water portions from the control panel for the waiter option
- Possibility to fill a jug or carafe with a key or a waiter's button
- Possibility of temporarily switching off juice/drink dispensing when the water dispensing function is active
- Dimensions: width: 425 mm, height: 435 mm, depth: 460 mm
- Weight: 44 kg
- Power consumption: 250 W
- Water connection: w 3/4" hose or 8 mm quick coupling

4

DISPENSER PUREMIX COMPACT 2+2 CO₂

- 2 kinds of juices, cooled water, carbonated water
- Mixing zone volume 3 x 2,5 kg packets = 7,5 kg concentrate PURENA = 250 breakfast portions (160 ml) inside the appliance
- Super fast cooling thanks to use the dry cooling block system
- Dispensing 160 ml portion of product takes only 6 seconds
- LED backlight in the dispensing area
- Serving counter: daily, weekly
- Possibility of programming the size of the portion: Auto portion or dispensing in Manual mode (amount of drink programmed by length of holding the button)
- Compatibility with payment systems or access systems (for card or magnetic key, RFID reader: canteens, water parks). Communication with billing systems via slow-speed 0/1 input
- Informative LCD display
- Automatic selection of settings for the product
- Easy correction of the concentrate/water portions from the control panel for the waiter option
- Possibility to fill a jug or carafe with a key or a waiter's button
- Possibility of temporarily switching off juice/drink dispensing when the water dispensing function is active
- Dimensions: width: 425 mm, height: 435 mm, depth: 460 mm
- Weight: 44 kg
- Power consumption: 250 W
- Water connection: w 3/4" hose or 8 mm quick coupling
- Connection of carbon dioxide gas: quick coupling 8 mm through the carbon dioxide reducer, pressure 3,8 Ba

POSTMIX EQUIPMENT

5

DISPENSER PUREMIX COMPACT 3+1

- 3 kinds of juices and cooled water
- Mixing zone volume 3 x 2,5 kg packets = 7,5 kg concentrate PURENA = 250 breakfast portions (160 ml) inside the appliance
- Super fast cooling thanks to use the dry cooling block system
- Dispensing 160 ml portion of product takes only 6 seconds
- LED backlight in the dispensing area
- Serving counter: daily, weekly
- Possibility of programming the size of the portion: Auto portion or dispensing in Manual mode (amount of drink programmed by length of holding the button)
- Compatibility with payment systems or access systems (for card or magnetic key, RFID reader: canteens, water parks). Communication with billing systems via slow-speed 0/1 input
- Informative LCD display
- Automatic selection of settings for the product
- Easy correction of the concentrate/water portions from the control panel for the waiter option
- Possibility to fill a jug or carafe with a key or a waiter's button
- Possibility of temporarily switching off juice/drink dispensing when the water dispensing function is active
- Dimensions: width: 425 mm, height: 435 mm, depth: 460 mm
- Weight: 44 kg
- Power consumption: 250 W
- Water connection: w ¾ hose or 8 mm quick coupling

6

DISPENSER PUREMIX SLIM 4+2CO₂

- 4 kinds of juices, cooled water, carbonated water
- Separate zone of concentrates outside the dispenser in special drawers (under the counter) which makes that the device is small and ergonomic in size
- 8 x 2,5 kg packets = 20 kg concentrate PURENA = 625 breakfast portions (160 ml) in separate cupboard
- Super fast cooling thanks to use the dry cooling block system
- Dispensing 160 ml portion of product takes only 6 seconds
- LED backlight in the dispensing area
- Serving counter: daily, weekly
- Possibility of programming the size of the portion: Auto portion or dispensing in Manual mode (amount of drink programmed by length of holding the button)
- Compatibility with payment systems or access systems (for card or magnetic key, RFID reader: canteens, water parks). Communication with billing systems via slow-speed 0/1 input
- Informative LCD display
- Automatic selection of settings for the product
- Easy correction of the concentrate/water portions from the control panel for the waiter option
- Possibility to fill a jug or carafe with a key or a waiter's button
- Possibility of temporarily switching off juice / drink dispensing when the water dispensing function is active
- Dimensions: width: 260 mm, height: 530 mm, depth: 415 mm
- Weight: 36 kg
- Power consumption: 250 W
- Water connection: w ¾ hose or 8 mm quick coupling
- Connection of carbon dioxide gas: quick coupling 8 mm through the carbon dioxide reducer, pressure 3,8 Ba

7

DISPENSER PUREMIX TOWER 4+2 CO₂ / 6+2 CO₂

- 4 / 6 kinds of juices, cooled water, carbonated water
- The whole is mounted in an under-counter system. Only the issuing column and the drip tray are mounted on the counter of a special cabinet or client's furniture. The drainboard can be installed. Other elements: in ventilated under-counter space
- 4 x 2 x 2,5 kg packets = 20 kg concentrate PURENA = 680 breakfast portions (160 ml) for TOWER 4+2
- 6 x 2 x 2,5 kg packets = 30 kg concentrate PURENA = 1000 breakfast portions (160 ml) for TOWER 6+2
- Super fast cooling thanks to use the dry cooling block system
- Dispensing 160 ml portion of product takes only 6 seconds
- LED backlight in the dispensing area
- Serving counter: daily, weekly
- Possibility of programming the size of the portion: Auto portion or dispensing in Manual mode (amount of drink programmed by length of holding the button),
- Compatibility with payment systems or access systems (for card or magnetic key, RFID reader: canteens, water parks). Communication with billing systems via slow-speed 0/1 input
- Informative LCD display
- Automatic selection of settings for the product
- Easy correction of the concentrate/water portions from the control panel for the waiter option
- Possibility to fill a jug or carafe with a key or a waiter's button
- Possibility of temporarily switching off juice / drink dispensing when the water dispensing function is active
- Dimensions: width: 215 mm, height: 415 mm, depth: 240 mm
- Weight: 36 kg
- Power consumption: 250 W
- Water connection: w ¾ hose or 8 mm quick coupling
- Connection of carbon dioxide gas: quick coupling 8 mm through the carbon dioxide reducer, pressure 3,8 Ba
