## Our Christmas

*A story that tells of a great passion for sweets, born from the love for the scent of bread of the baker Luigi Zaghis, a young man from Treviso who transformed a small shop into a great artisan reality, bringing **traditional specialties to the homes of the village.***

*Levada, a small village, to which Luigi used to let taste the new recipes to receive sincere opinions and advice.*

*A true sharing of goodness that has allowed him to become a renowned **master of great leavened products.** For sixty years, we have been taking care of its precious sourdough, a treasure from which the tastiest panettone, the softest pandoro and the most fragrant focaccia are born.*

**Values and  
ideas shared,  
make unique  
our work**

Christmas 2023

**Zaghis**

## Mission

*Make unique and inimitable every product, spreading the excellence of our territory combined with the value of yeast mother, true Zaghis heritage*

## Vision

*We want to be with those who every day seeks a moment of sweetness.*

## Consumer focus

*We want to satisfy and exceed his expectations with our products.*

## Passion

*We give 100% of our heart and mind in what we do.*

## Ongoing improvement

*We enhance human resources through paths of growth and development.*

## Simplicity

*We bring and demand simplicity in any single aspect: in our recipes and in our relationships with colleagues, suppliers and customer.*

## Responsibility

*In our behavior for us and for others.*

*We walk the path of environmental respect through:*

- *Productive solutions with less energetic impact (food printing);*
- *Use of Bio-degradable and recyclable packaging;*
- *Waste containment for packaging and products;*
- *Being good citizens where we work and live.*

## IFS Certification for a safe and quality product

*IFS food is one of the food safety standards recognised by the Global Food Safety Initiative (GFSI), an international initiative, whose main purpose is to strengthen and promote food safety throughout the supply chain.*

## Bio

*Bio products are exclusively made of certified ingredients according to European normatives: in order to bring on the table a high quality 'jewel' with no chemical products and OGM. Our products count on selected ingredients.*

# Passion, Curiosity, Innovation and People

*Our creations are a mix of **experience, taste and innovation.***

*The founder Luigi Zaghis started a story and today the new generation continues to tell it batch after batch, with dedication and creativity.*

*“Every single day, my duty is to take care of our natural sourdough. Through these last years, we’ve been treasuring of different technique in high patisserie, in addition we give our own personality in order to make our products unique.”*

**Stefano**

*“Patisserie is manual skill, research and creativity. Our goal has always been to enable to combine good and healthy ingredients with new recipes. Unexplored flavors are those that are able to give very rare experience.”*

**Marino**

*“Love for cakes has always been my personal spark to research, experiment and create new combination, finding the right way to report it to people. Curiosity is the secret of all.”*

**Alessandra**

*“Everything I do is to make sure any details from production to packaging may respect our quality standard. Goodness is a precious balance which must be always preserved in any single phase of production.”*

**Gianluca**

**A dynamic team  
where evolution  
and tradition  
coexist in harmony.**

# Genuine ingredients, Italian specialties

The excellence  
of our  
territory

# To get the best Panettone, the best ingredients are required.

*Raw material check and certifications, from natural flavors and extraordinary quality,  
a result of generosity of a unique land, ITALY.*

*We have selected the best local and national productions of lovely country.*

# The real protagonists of our goodness

## FRESH ITALIAN EGGS from ITALIAN PRODUCTION.

*We have awarded our land by buying only italian free-range eggs.*

## BUTTER.

*We have selected fresh butter of first derivation which is produced directly and exclusively from top quality fresh milk cream. A valuable ingredient to provide authenticity.*

## FRESH MILK of cows from the Veneto and Friuli region.

*Fresh milk with a 3.6% of fat. Milk coming from selected dairy farms in the Veneto and Friuli-Venezia-Giulia regions.*

## AUSTRALIAN RAISINS.

*Coming only from grapes of Vitis Vinifera Sultana with the right degree of aging, grown exclusively in Australia. The acinus are dried naturally with a progressive loss of water and an increment of all its flavors. They have a straw color and honey taste.*

## TURKISH RAISINS.

*Called Sultanina, comes from selected grapes, wellmatured and cultivated only in Turkey. In this territory, these raisins have been cultivated since the Ottoman Empire times. After the exsiccation process, the acinus have a brownish-colored and sugary flavor.*

## MADAGASCAR VANIGLIA BOURBON.

*Many probably don't know that the plant that produces the black pod belongs to the Orchidace family and comes from Mexico. Zaghis has chosen the Bourbon pods for its intense vanilla perfume that differentiates from other pods found in the market. It has a long and manual process inspired on the original technique used in its origin country.*

## 'MILLEFIORI' HONEY from sustainable family beekeeping in Friuli.

*We have chosen Spring time 'millefiori' honey quality from our Veneto territory, due to its clear and amber color and its maple, cherry and dandelion scent. With its almond and cooked apple aroma in a slow crystallization, we get confectionary products for special feast.*

### SICILIAN CANDIED ORANGE.

There's many kind of candied oranges, but we at Zaghis always choose highest quality ingredients, therefore the king of candied fruit: **the 'Scorzone'**, made only from Italian oranges. This variety of orange is different from the half- 'Scorzone' which has no 'albedo' (part underneath the orange peel). Scorzone is composed just of orange peel, the minor part of the fruit, where the **essential oils, the scents, and the natural fruit pigments** are found. Being the peel the leathery part of the fruit it maintains a level of toughness that is softened during the candying process and due to this it takes more days than other candied fruit.

### DIAMANTE SMOOTH CEDAR of CALABRIA.

We have chosen this fine candied fruit of diamond cedar, also called **'The gold of Calabria'**, due to its peel which has a sweet flavor with an intense scent. With its candying process, which is slow and at low temperature, it gives the palate a soft and flavorful delicacy.

### DOMORI CHOCOLATE.

We selected a special chocolate, a **chocolate with a single origin** that comes from the Ivory Coast. Pure 60% dark chocolate drops with notes of **cocoa, wood and spices** that becomes a delight for all chocolate lovers.

### WILLIAMS PEAR from PO RIVER.

The story of the noble Williams pear comes from England. Today, it is cultivated in the Po river territory which produces excellent pears with a firm, white, sweet and fragrant pulp.

### ALMONDS from BARI.

This fragrant almond with an intense flavor which is grown in **Alta Murgia (Bari)**, was selected due to this environment where it is grown, protected and pristine. The encounter between our crunchy glaze and the butter notes released by this almonds from Toritto, give the panettone a surprising taste.

### JUMBO CHILEAN RAISINS

Valuable, tasty, soft, delicious raisins, characterized by very light pulpy grains and with a considerable size greater than one centimetre, furthermore it is **seedless and rich in natural sugars**. A wonderful discovery to be savored inside our panettone.

### MEDITERRANEAN half-candied FIGS.

Starting from one of the most antique plants that grow in the Mediterranean basin area, the figs for our prestigious panettone are born. After being harvested with a high level of sugar content, they are **immediately half-candied** so they can maintain their characteristic form.

# A slow leavening

**Aroma, softness, fragrance**  
**The value of patience.**

**48** *Many hours are required to obtain the distinctive flavor of Zaghis leavened goods. With much respect, we wait every day for the slow leavening of the sourdough starter, the dough's timing, the baking time and finally the natural cooling period. Time is important even in this last phase: Zaghis panettones are flipped upside down so they can slowly and naturally cool down in order to maintain its top area puffed and crisp.*

**48** *hours that give a well-alveolate, light and soft dough that only a patient craftsman can obtain.*

*Natural sourdough is alive, it needs to be fed and renovated by our chef who preserves flavors and secrets.*

*From our sourdough of 1964, ancient perfumes come alive which feature our Zaghis hand-make cakes.*
